It's *ok*
not to be
perfect!

THE FIRST
POST-CONSUMER
RECYCLED PLASTIC BIN
Beauty lies in green

If it's perfect, it's not post-consumer:

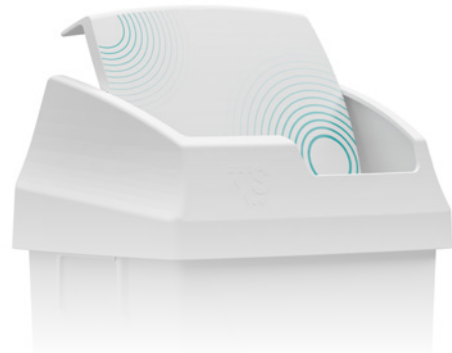

imperfections on the surface are the **feature** of products made from post-consumer recycled plastics, indicating the **reuse of end-of-life materials** to generate new goods in a circular approach.

97%
POST-CONSUMER
recycled plastic

Lindy
Re -Swing

Open or closed?

The **swing lid** is designed to open inside the dustbin, thus avoiding collisions with the wall behind.
The opening of the swing lid can be stopped at any time to speed up collection operations.

Standard or customised?

Lindy Swing allows you to choose between standard version with **TTS graphic** or with **colour code** and **customisation with logos or images** to make the bin an effective advertising vehicle or to adapt its appearance to the environment for which it is intended.

Printing is done directly on the lid during production, ensuring **maximum resistance over time** and making the **surface scratchproof and resistant to chemicals**.

STANDARD		CUSTOMIZING EXAMPLES	
			
<i>TTS graphic</i>	<i>Colour coded</i>	<i>Injection printing</i>	

On the floor or **on the wall**?

*Waste bins can be placed
on the floor or fixed to the wall*

Thanks to the **wall fixing holder** they can always be kept high off
the floor so that cleaning is easier.

Wall fixing holder for Lindy

LINE

HIT THE TARGET
Aim and... separate waste!

Lindy
Hop

From paper to plastic, through organic and residual waste: every type of waste has its place.

Never before has it been so easy and convenient to separate waste: the lids with **shaped inserts** have been specially developed to help with correct waste sorting, preventing mistakes that lead inevitably to less waste being recycled and more being sent to landfill.

Available in **different colours**, you can create practical areas where sorting becomes child's play.

Like Lindy Swing, Lindy Swing Colour and Re-Swing, the Lindy Hop bin is suitable for **wall-mounting**.

Lindy
LINE

Each need has
its own **configuration**

*The components of the Lindy range
are freely interchangeable*

so that the bin can be adapted to specific waste collection needs.
The same 50-litre bin can be used with both the lid
and the entire range of lids with shaped inserts, without any limits.

Inform universally

Make waste sorting even easier with universal adhesive labels

Words and images help to identify immediately the type of waste to be placed in each bin, avoiding any doubt.
