YOUR GLASS WILL SHINE  
TWICE AS BRIGHT

## Attaching tools quickly

*Each tool is equipped with italian thread and*  
**LAMPO JOINT**

**Lampo system reduces time and increases safety**, as it allows equipment to be instantly hooked to handles or poles, ensuring a firm attachment. The operator no longer has to pick up ladders or stools to reach high surfaces or fear accidental release during cleaning operations.

### LAMPO SYSTEM IS EVERYWHERE

With Lambo, you have a **complete range of professional cleaning tools** at your disposal: the **Jack** adapter allows you to **use one handle with the entire range of dusters, web brushes, glass cleaning tools and floor frames**. In addition, the **Plug** device allows you to **release the frames directly on the trolley**, without any contact with contaminated surfaces.

## Jack Angled overcomes limits and obstacles

The **Jack Angled** joint overcomes the limits imposed by fixed-angle equipment, allowing a **free choice of inclination by adjusting it easily and immediately.**

Available in **versions for handles  $\varnothing$  23 mm and poles  $\varnothing$  21 mm**, the operator is no longer forced to equip himself with tools with different working angles, thus increasing the costs involved, and is no longer forced to continually replace the tool in use, thus slowing down operations.
